

Agustín Vázquez Cendron

Senior Full Stack Developer (.NET | Node.js | React)

Argentina | Remote | ✉ agustiki@hotmail.com | 📞 2966344546

[linkedin.com/in/agustinvazquezcendron](https://www.linkedin.com/in/agustinvazquezcendron)

Professional Summary

Senior Full Stack Developer with over 10 years of experience in enterprise application development. Specialized in .NET, C#, REST APIs, and React-based frontends. Experienced in leading teams, modernizing legacy systems, and designing scalable solutions. Currently focused on AI-assisted development, prompt engineering, and evaluating LLM-generated outputs — with hands-on experience training and refining AI models through tools such as Claude AI, GitHub Copilot, and ChatGPT.

Core Technical Skills

Backend: C#, .NET Core, .NET Framework, ASP.NET MVC, Node.js, Express.js

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3

Databases: SQL Server, Oracle, MongoDB, Azure CosmosDB

Cloud & DevOps: Azure, CI/CD, Azure DevOps

Architecture: REST APIs, Clean Architecture, SOLID, Microservices, Docker

AI & Prompt Engineering: Prompt design, LLM output evaluation, AI-assisted code review, GitHub Copilot, Claude AI, ChatGPT

Project Management & Tracking: Jira, Trello, Git, Azure

Professional Experience

Senior Full Stack Developer

Freelance – Remote | 2025 – Present

- Design, development, and maintenance of web applications, primarily using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Evaluation and correction of LLM-generated code outputs, integrating AI-assisted results into production codebases. Primary AI assistant used: Claude AI.
- Design and testing of technical prompts targeting edge cases in complex coding domains, including API design, data modeling, and algorithm implementation.

Senior Full Stack Developer

Charles Taylor InsureTech – UK, Remote | 2018 – Late 2025

- Design and implementation of business process applications for corporate banking, insurance companies, and insurance brokers, plus participation in internal software development projects.
- Design and development of REST APIs with .NET Core.
- Leadership of Scrum teams of 4–5 developers.
- Migration of legacy systems to .NET Core.
- Development and maintenance of scripts in Transact-SQL (SQL Server), PL/SQL (Oracle), MongoDB, and Azure CosmosDB.
- SQL Server script optimization.
- Integration of AI assistants into the development process (GitHub Copilot).
- Work in distributed agile environments.
- Requirements analysis (User Stories).
- Project estimation, scheduling, and task tracking management.

Senior Software Analyst and Developer

Inworx SA – La Plata, Argentina | 2015 – 2018

- Application development with ASP.NET MVC and SQL Server.
- Implementation of REST APIs for React frontends.
- Query and stored procedure optimization.
- Participation in system architecture and evolution.
- Legacy system maintenance.
- Conduct training for new developers.
- Coding, testing, and fixing programming errors.
- Backlog negotiation and project estimations.

IT Support & Software Developer

Osi Control & Computadoras – Puerto San Julián, Argentina | 2012 – 2015

- Development of new tools and applications.
- Creation and maintenance of websites.
- IT infrastructure changes and installations.
- Repair/upgrade of existing applications.
- IT support for other employees.
- Technical advisory to users on all system-related inquiries.
- Development and implementation of web applications based on client requirements.
- Installation and configuration of computer networks.

Education

Bachelor's Degree in Computer Science

Universidad Nacional de La Plata | La Plata, Argentina

5-year undergraduate degree in Computer Science (2010–2015). Thesis titled: "Layered Architecture: analysis and practical case study of the n-tier architectural model and its variants".

Served as an honorary Teaching Assistant for the Algorithms, Data, and Programming course from 2011 to 2013.

Associate Degree in Systems and Computer Science

Universidad Nacional de La Plata | La Plata, Argentina

3-year intermediate undergraduate degree in Systems Programming Analysis (2010–2012).
